Alastair Williamson CEO:

We are proud to report that Wyld Networks has delivered its first commercial sales from our satellite IoT solutions. We successfully completed our first shipment generating initial sales of 0.5 MSEK. The total operating income for the company in Q1 2025 was 2.05 MSEK.

This milestone not only validates our technology and product offering but also marks the beginning of a broader ramp-up of deliveries against our existing order backlog.

As we transitioned last year from a development company into a commercial company we have taken steps to optimize our cost base and coupled with our first revenues in Q1 2025 this has resulted in a significant reduction of operating loss in the quarter from 11,256 KSEK in Q1 2024 to 5,014 KSEK in Q1 2025 an improvement of 55%.

Personnel costs for the quarter reduced 48% from 7.8 MSEK to 4.1 MSEK.

Other external costs for the quarter reduced 45% from 4.3 MSEK to 2.3 MSEK.

The cash balance increased in the quarter from 3.2 MSEK to 4.6 MSEK in addition in Q1 2025 the Company was awarded a cash payment of 5.8 MSEK as part of our R&D efforts in 2024. We expect this cash payment to be made to the company in Q2 2025.

Equity in the group increased by 1.0 MSEK in the quarter.
