

## The AAC Clyde Space EPICHyper-3 Satellite has Successfully Launched Aboard the SpaceX Falcon 9 Rocket

**2023-11-13 AAC Clyde Space AB (publ)**

AAC Clyde Space's Space Data as a Service satellite, EPICHyper-3, was successfully launched on November 11, 2023 from the Vandenberg Space Force base in California, USA aboard a SpaceX Falcon 9 rocket on the Transporter 9 mission.

Under the SDaaS agreement AAC Clyde Space owns and operates three EPICHyper satellites, whilst Canadian company Wyvern Inc. owns the hyperspectral data delivered by the satellite. The intended end user for the data is the agriculture sector. The space data generated from the satellites can be used to optimise yields and detect invasive plants, pests and changes in soil make-up.

*"Our first EPICHyper constellation is now on orbit and will demonstrate the true capability of our built for purpose EPIC VIEW platform. This launch marks a milestone in our Space Data as a Service offering to the market and will show how much each of these small satellites packs a punch in terms of space data generation for our clients,"* says **AAC Clyde Space CEO Luis Gomes**.

### **ABOUT AAC CLYDE SPACE**

AAC Clyde Space specialises in small satellite technologies and services that enable businesses, governments and educational organisations to access high-quality, timely data from space. Its growing capabilities bring together three divisions:

**Space Data as a Service** - delivering data from space directly to customers

**Space missions** - turnkey solutions that empower customers to streamline their space missions

**Space products and components** - a full range of off-the-shelf and tailor-made subsystems, components and sensors

AAC Clyde Space aims to become a world leader in commercial small satellites and services from space, applying advances in its technology to tackle global challenges and improve our life on Earth.

The Group's main operations are located in Sweden, the United Kingdom, the Netherlands, South Africa and the USA, with partner networks in Japan and South Korea.

AAC Clyde Space's shares are traded on Nasdaq First North Premier Growth Market. Erik Penser Bank AB is the Certified Adviser. The share is also traded on the US OTCQX-market under the symbol ACCMF.
