

AAC Clyde Space publishes Annual Report for 2024

2025-04-24 AAC Clyde Space AB (publ)

AAC Clyde Space today published its Annual Report for 2024, highlighting a year of growth, strategic development and increased global relevance. In a time when the global order is shifting and access to reliable data is becoming critical, AAC Clyde Space stands well-positioned to meet demand. The Group achieved a 13% EBITDA margin, with all business segments contributing positively to the result.

With 20 years of experience, a proven track record of profitability, and expanding capabilities in satellite-based services, AAC Clyde Space continues to deliver for today's needs while building for tomorrow. The company's acquisition of Spacemetric in 2024 enhanced its ability to provide high-quality, data-driven solutions that support customers across industries.

The company's international presence – with operations in Sweden, the UK, the Netherlands, South Africa and the USA – reinforces its role as a trusted supplier in a changing geopolitical landscape, where demand for resilient, space-based infrastructure continues to grow.

“There is no doubt that the global order is undergoing fundamental change. It's a shift that brings significant challenges for all of us – but I see that AAC Clyde Space is well-prepared. We are strongly positioned to accelerate our development within data and services, and well-equipped to meet the growing need for space-based infrastructure and intelligence,” said Luis Gomes, CEO of AAC Clyde Space.

The 2024 Annual Report is available on the company's website:
