

Move About expands in Trollhättan

In collaboration with Eidar, Move About is opening their fourth car sharing location in Trollhättan – located at Bergslagstorget by the central station. The three shared cars are now available to book for citizens, residents, and employees in the nearby area.

For several years, Move About has collaborated with Högsolan Väst, Innovatum and Kraftstaden on electric car sharing in Trollhättan. Currently, there are three locations open for bookings with the purpose of increasing sustainable transportation within the Innovatum-area.

Together with the public housing company Eidar, Move About now strengthens their presence in the city by further expanding in Trollhättan.

A great spot for shared cars

The brand-new car sharing station consists of two Nissan Leaf (40 kWh) and one Nissan Leaf (62 kWh) and is located at Bergslagstorget nearby the central station in Trollhättan. Because of the high amount of people passing through every day, this is an attractive location for shared electric cars. The varying range of the cars makes it easy for users to find a good alternative for their trip.

“Location is of course a very important aspect in car sharing. To be able to offer shared electric cars at such a central and strategic location in Trollhättan makes our offer attractive to both citizens, commuters, and other travelers”, Peter Aldby, Country Manager at Move About, says.

Move About Group AB in brief

Move About offers app-based, environment friendly, and cost-efficient mobility solutions to individuals, businesses, municipalities, and organizations. The Company has developed and owns all immaterial rights to the cloud-based green tech platform which gives digital access to electric cars, electric bikes, taxi, subway, and parking, all through the same app – around the clock. Every kilometer the user travels with the electric cars via the platform reduces CO₂ emissions.

The Company's extensive mobility solutions is built upon the Move About-app which gives the user access to the Company's pools of electric cars, bikes, and scooters. Move About also assists companies, municipalities, and organizations to optimize their vehicle fleets by tailoring mobility solutions based on needs.

Move About was founded in Oslo, Norway, 2007 and has over 58,500 users today on their platform, and over 730 electric cars in the Company's vehicle fleet with presence in Sweden, Norway, and Germany.
