## **Eevia Health Plc receives a 5,8 MSEK/0,55 MEUR sales order for high concentrate anthocyanin organic bilberry extract**

**Eevia Health Plc, ("Eevia" or "The Company"), has received a sales order from its Australian distributor Ingredients Plus.**

Ingredients Plus serves leading nutraceutical brands in Oceania and Asia with high-quality ingredients. The end customer is a major natural health company based out of Sydney, Australia selling its consumer products across Asia and Oceania.

The sales value of this order is c. 545 000 EUR. The product is **Feno-Myrtillus®** bilberry extract standardized with a minimum of 36% anthocyanins. The **Feno-Myrtillus®** powder is extracted from arctic bilberries. The bilberry anthocyanin is a polyphenol with great benefits to human health which is included in a range of applications in food and dietary supplements with multiple benefits for human health. The order is slightly higher than earlier expectations for repeat sales of this product and is confirmed subject to the sufficient availability of raw materials at a pre-calculated raw material price for the upcoming harvest.

*"With the volatility in the raw material markets due to the war in Ukraine, which is a large supplier of bilberries, and the continued pandemic, we are pleased to see that major brand organizations put their trust in Eevia Health as a reliable and high-quality supplier of berry extracts based on Swedish and Finnish bilberries,"* says Anna-Maija Vanhatalo, Customer Service Manager in Eevia Health.

***This disclosure contains information that EEVIA HEALTH PLC is obliged to make public pursuant to the EU Market Abuse Regulation (EU nr 596/2014). The information was submitted for publication, through the agency of the contact person, on June 27, 2022.***

## INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients to dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name [EEVIA](#).
