Press Release

Free2move stärker kassan i och med ny strategisk inriktning

Free2moves nya strategiska inriktning innebär övergripande att förutom att vara produktleverantör även erbjuda helhetslösningar inom trådlösa sensornätverk. Baserat på den nya strategin har vi lyckats stärka kassan med 5,5 MSEK via en bryggfinansiering från befintliga ägare och externa långgivare fram till höstens kommande emission. Bryggfinansieringen skall ses som en injektion för fortsatt satsning inom bolaget.

About Free2move Holding AB

Free2move Holding markets high performance low energy wireless technologies under two brand names: Free2move and SensMaster.

Free2move is a leader in Bluetooth® products characterised by long-range, simplicity and low cost integration. Free2move's embedded modules are easy to in-design for customers, allowing for cost effective solutions of their products. Free2move designs complete integrated solutions with defined interface for data and audio communication.

SensMaster specialises in end-user products for identification (RFID), security and wireless sensing. SensMaster's products are employed in industries such as air transportation, healthcare, manufacturing, oil & gas; typically in applications for asset tracking, security, safety and environmental monitoring.
