## Unibap receives follow-on order of advanced onboard data processing products

**Unibap AB (publ.) “Unibap, or Company” has received a follow-on order from Satellogic S.A. of advanced onboard data processing products from Unibap for \$122,000 USD for delivery in early 2019.**

Unibap has received a follow-on order from Satellogic of onboard processing products within the business area space and surveillance. Unibap’s space solutions and products marketed as SpaceCloud™ are optimized for artificial intelligence and advanced information processing based on a common platform Deep Delphi™, shared with the Company’s industrial intelligent automation and quality assurance offerings. Unibap has a unique market advantage based on its x86/PC heterogenous computer architecture.

- Follow-on orders are important to demonstrate that our SpaceCloud solutions offer advantages. This is in line with previously communicated increased international interest in our products, said Unibap's CEO Dr. Fredrik Bruhn.
