Eevia Health Plc receives a 245 KSEK / 21 KEUR sales order for a bilberry extract

Eevia Health Plc, ("Eevia" or "The Company"), has received a sales order from a customer in Germany of c. 21 KEUR for Feno-Myrtillus® 36 Organic, an organically certified bilberry extract.

The German company is strategically focusing on health effects from Bilberry anthocyanins. The Customer's end products are branded high-end supplements with a standardized level of bilberry anthocyanins. Products are sold across Germany.

The sales value to Eevia of this new order is c. KEUR 21 EUR and is the second order from a recently acquired customer. The product is Eevia's branded ingredient **Feno-Myrtillus® 36 Organic**, which is an organically certified bilberry extract purified and standardized with 36% anthocyanins. Bilberry anthocyanins have shown clinical benefits for humans related to eye health and metabolic conditions, among other benefits. Eevia has a strong, sustainable and socially responsible supply chain for berries harvested in the forests of Sweden and Finland.

The order is expected to be followed by further repeat orders in the future.

INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients in dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name (ticker) [EEVIA](#).
