Powering Digital Safety

Safestate Group AB (publ): Hosting industry founder identified as new board member, succeeding Børge Granli

Safestate Group AB (publ) announces that board member Børge Granli has decided to step down from the Board of Directors for personal reasons. Safestate thanks Børge for his contribution and wishes him all the best.

The Board has already identified his successor: a technology entrepreneur who founded one of the larger hosting companies and has many years of experience in the industry. Hosting providers are among Safestate's most important distribution partners, so his first-hand knowledge of how these businesses think, sell and grow will be very valuable as Safestate continues to roll out its identity protection offering for SMBs and consumers. Safestate looks forward to welcoming him to the Board.

Further information about the new board member will be published once the formal process has been completed.
