

PRESS RELEASE on 14 January 2026

Invitation to a Live Investor Update on Arctic Minerals' Copper-Silver Project Hennes Bay in Sweden

On Thursday 15 January 2026 at 12.00 p.m. (noon) CET Arctic Minerals' director Peter George will present on the latest exploration update and the results of a recently completed airborne magneto-telluric ("MMT") survey and magnetic vector inversion ("MVI") modelling of historical airborne magnetic data at the Hennes Bay Copper-Silver Project ("Hennes Bay" or the "Project") in Sweden. The presentation includes a Q&A session.

The live presentation can be accessed here:

<https://www.youtube.com/watch?v=f2ByP1ueRNY>

A recorded version of the presentation will also be available on the Company's website www.arcticminerals.se/en/media.

On 13 January 2026 Arctic Minerals reported on the results of a recently completed MMT survey and MVI modelling of historical airborne magnetic data at Hennes Bay. MMT and MVI geophysical modelling reveals strong correlation with known mineralisation and identifies combined new target area 10 times larger than the Dingelvik deposit ready for drill testing.

The full report on the results is available on the Company's website at [https://investor.arcticminerals.se/en/presentations/](http://investor.arcticminerals.se/en/presentations/).
