H&D Wireless have been approved for listing on First North – First day of Trade 22 December

Hitech & Development Sweden Holding AB ("H&D Wireless") hereby declares that the company has been Approved For listing on Nasdaq Stockholm First North. First day of trading in H&D Wireless Shares Is The 22 December 2017.

Earlier in December H&D Wireless made a successful emission Rights issue subscribed to 170%. H&D Wireless raised 26MSEK of capital before issue costs. The company's operations based on the proprietary cloud RTLS the Griffin Enterprise Positioning System (GEPS) platform. "The strong oversubscription I think reflected the great interest that exists for H&D Wireless. The new money will now be used within the Enterprise business unit. Our new industrial IoT solution for wireless real-time tracking (RTLS), is specially developed for customers in the manufacturing industry and to facilitate their path to digitisation, Says Pär, the company's founder and CEO.
