

## **Meltron receives further orders from forestry industry in Finland**

Meltron has received two further orders in excess of 60 k€ from two of the big three forestry industries in Finland (Stora Enso, Metsä, UPM). The orders are supplementary to earlier deliveries and projects. They include a smaller number of MEX, Meltron's gas explosive safe luminary (ATEX), which is Meltron's most advanced and certified product, as well as the HighBay for a larger industrial hall under refurbishment and modernization.

- These orders confirm again that our products are valued by our customers in the very demanding, global forestry industry in Finland. Meltron's products are characterized by very good optical features and light distribution, which provides effective solutions for our customers, says Stefan Kåla, CEO of Meltron.

Meltron has secured the supply of components and sub-assemblies and the orders will be delivered during the autumn.

## **About Meltron – “More than Just Light”**

*Meltron AB designs, manufactures and sells LED lighting solutions which are based on interdisciplinary application of electronics, optics, thermodynamics and nano structures. “More Than Just Light” translates into energy savings, superior light quality, product life-time savings, increased productivity, safety and wellbeing. Meltron provides high quality solutions for the most demanding environments in infrastructure, industry and logistics.*

*Meltron's shares are traded on NGM Nordic MTF under the ticker **MLTR**. For more information, please contact:*
