## **Eevia Health Plc receives a 141 KSEK / 12 KEUR sales order from Germany**

**Eevia Health ("Eevia" or "The Company") received sales order for multiple products from a customer in Germany of c. 12 KEUR.**

The German customer develops and markets vegan vitamins, superfoods, and sports nutrition under well-known brands. They use high quality raw materials in their own, innovative recipes. The company stands for strict quality control and exclusively vegan products.

The order contained multiple products from Eevia's portfolio. One of the products is Eevia's branded ingredient **Feno-Myrtillus® 25 Organic**, which is a highly concentrated and organically certified bilberry extract with 25% anthocyanins. The order is expected to be followed by further repeat orders in the future.

## INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients in dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name (ticker) [EEVIA](#).
