Eevia Health Plc revises its Information Policy

Eevia Health Plc ("Eevia" or "The Company") has revised its Information Policy and changed the threshold for orders to 566 KSEK (50 KEUR).

Eevia has updated its Information Policy, according to Spotlight Stockmarket's requirements. One out of many updates is the policy related to informing the market about sales orders and contracts. While press releases earlier were made for sales orders over 10 KEUR, such press releases will now only be made for orders or contracts with a sales value over 50 KEUR.

A press release will also be made when the accumulated value of several smaller orders is over 50 KEUR. Anything beyond the ongoing day-to-day operations will always be informed.

"We were in 2022 criticized by some investors for offering too little information related to sales orders, so we lowered the threshold to KEUR 10. Lately, we have been criticized for informing about too small orders. After contemplating this, we have raised the threshold to KEUR 50 for informing about sales orders," says Stein Ulve, Eevia's CEO.

INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients to dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, Chaga mushroom, and pine bark, are wild-harvested sustainably.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at the Spotlight Stock Market in Sweden in June 2021, with the short name (ticker) [EEVIA](#).
