

Press release March 29, 2024

Unibap receives Authorization to Proceed with batch #2 within the previously announced contract with European smallsat integrator

Unibap has received Authorization to Proceed (ATP) for the second batch of SpaceCloud(R) iX5 solutions within the agreement previously announced on January 10, 2023. The ATP is a precursor to the call-off order for the second batch, which will enable Unibap to initiate production preparations in order to meet the requested delivery schedule from the customer, while the customer is waiting for final go-ahead from the commissioning European authority. The full contract is valued at 6.2 MEUR, of which 1.7 MEUR was ordered as batch #1. The second batch is valued at 2.25 MEUR, and the ATP for this batch covers 10% of its value. Batch #2 is scheduled for deliveries during the period Q3'24 to Q1'25.
