Eevia Health Plc received small initial sales order for Feno-Sambucus™ from Australia

Eevia Health ("Eevia" or "The Company") received a start order for the Feno-Sambucus™ worth SEK 110 000 from its Australian distributor Ingredient Plus. The order is a new start order for an Australian brand owner.

Eevia Health Plc is a leading health ingredient manufacturer from Finland and is currently the largest manufacturer of elderberry extract in the world. Eevia has received the first order for Feno-Sambucus, an Elderberry extract from Australia. The value of the orders equals a revenue of SEK 12 000.

The end customer is an established player within innovative complementary medicines in Australia, marketing and selling a diversified product range, combining nutrients, herbal and other ingredients. It is a leading supplier of traditional remedies which are available in over 5000 pharmacies and health food stores across Australia. The end customer uses the elderberry ingredients from Eevia in nutraceutical formulations for sales primarily in the Australian market.

Ingredient Plus is a leading and independent Australian distributor of Eevia Health. It has a strong position in Australia also covering other territories in the Asia-Pacific Region across key strategic markets.

CEO Stein Ulve comments: *"We are pleased to start export of European Elderberry extracts also to Australia. We have no clear major expectations for a large volume from this customer at this stage, but we all have to start somewhere. This is a welcome start for our Elderberry extract in Australia."*

INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients in dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name (ticker) [EEVIA](#).
