ELYSIUM STUDIOS AB, A NEW GAMING STUDIO EMERGING

ELYSIUM Studios AB ("ELYSIUM") is an online gaming and technology developer with offices in Malta, Sweden, Bulgaria, and Isle of Man.

In 2020 the gaming developer Maverick Technology Ltd merged with ELYSIUM Studios AB.

The merger gives ELYSIUM Studios AB a portfolio of games and a top of the line Remote Gaming Server "RGS". Integration has been done with the nine following aggregators with several others in the pipeline: BetConstruct, GamingTec, Flow Gaming, Pronet, DaoTech, GameHub, Everymatrix, QTech and BlueOcean Gaming.

The gaming platform is developed using the latest secured technology, which brings a high platform value. The platform delivers a quick and direct integration with aggregators and operators. The latest generation RGS (V2.0) brings scalable infrastructure, fast loading time and is very solid, connected and running with ultra-fast game deployment.

In the near future the company can also let other developers release their games through the RGS under the umbrella of ELYSIUM, this is another great opportunity for the company to make revenue. There is also the revenue option to lease out the RGS to other gaming operators.

In December 2020 ELYSIUM was granted a Romanian class Iia gaming license and in May 2021 the company received their Recognition Notice from the Malta Gaming Authority. Further certifications - MGA, UK, IOM, Gibraltar, Estonia, Latvia, Croatia, Georgia and Romania.

The board of ELYSIUM Studios consists of members with extensive experience within the online gaming industry, well-known resume and established network. In May 2021 Mr. Per Eriksson became Chairman of the board. Mr. Eriksson is known for his work as a CEO with NetEnt, building the company from a small developer to be one of the larger in the world.

The ELYSIUM development team is based in Sofia, Bulgaria and has great experience and knowledge from the online casino industry. With several games under development, we see a very exciting future for ELYSIUM.

The CEO of ELYSIUM Mr. Sergio Jacob comments, "We have a dedicated and experienced team with knowledge to create graphical and attractive casino slots, which I'm very proud of. Our concept is unique and we invest a lot of time in our math model, graphics and sound."

For ELYSIUM it is important to bring something new, something different. By mixing gaming patterns and game mechanics from social, video and casino gaming, we create unique games that will improve player retention, differentiate our games and attract new players."

Our Bulgarian gaming studio will release their first game SUPA CREW in September 2021 and there are several games in pipeline that will be released within the coming year."
