

## AAC Clyde Space wins 5.9 MSEK order for Beresheet 2

2022-06-17 AAC Clyde Space AB (publ)

**AAC Clyde Space, a leading small satellite company, has won a 0.56 MEUR (approx. 5.9 MSEK) order for its Sirius avionics for Israeli Spacell's Moon mission, Beresheet 2. It will be delivered during Q1 2024.**

*"The Moon is an increasingly popular destination for spacecraft and our sub systems are proving to be an ideal solution for these demanding missions. I am delighted that AAC Clyde Space is continuing to help pave the way for this new era of lunar exploration," says AAC Clyde Space CEO Luis Gomes.*

*"Spacell is a non-profit organization aimed to inspire the next generation of scientists, engineers and dreamers by execution of highly challenging scientific and educational space missions in deep space. Spacell is excited to work together with AAC Clyde Space all the way to the moon" says Spacell CEO Shimon Sarid*

Spacell's previous mission, Beresheet 1, was the first private spacecraft to the Moon. Beresheet 2 is planned to launch in the second half 2024 and will consist of an orbiter and two landers. The Sirius avionics will be deployed on the two landers which are developed and manufactured by Spacell.
