Eevia Health Plc receives a 934 KSEK / 85 KEUR sales order for a Bilberry extract product

Following a successful quality audit by Eevia Health Plc's ("Eevia" or "The Company") French auditor Natural Ingredients, Eevia has received an 85 KEUR sales order for Bilberry extract from its distributor.

The direct customer Natural Ingredients, Eevia's distributor in France and certain other European countries, undertook an on-site quality audit at the beginning of October, which resulted in zero non-compliances.

Following the successful quality audit, Natural Ingredients placed a sales order for bilberry extract. The end customer is a large European brand owner headquartered in France with a marketing reach across the European continent.

The sales value to Eevia of this new order is c. 85 000 EUR. The product is a Bilberry extract standardized for anthocyanins. It is expected to be a trigger to further orders.

"Natural Ingredients is a great distributor with an uncompromising approach to quality and customer service, which we highly appreciate. We are strongly committed to developing the business with Natural Ingredients in the years to come," says Petri Lackman, CTO of Eevia Health.

INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients to dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name (ticker) [EEVIA](#).
