## Qbrick enters into partnership with a leading Swedish government agency for secure digital video communication

**Qbrick AB (publ) today announces a new partnership with the Swedish Transport Administration (Trafikverket). The collaboration aims to strengthen the agency's digital communication and video management through a secure and scalable video platform tailored for the public sector.**

Public sector organizations place extremely high demands on security, accessibility, and stability in digital infrastructure. Through Qbrick's platform, Trafikverket gains access to a secure video solution developed for organizations where reliable communication and data protection are critical.

### **Krister Karjalainen, CEO of Qbrick AB, comments:**

*"We are very proud to begin our collaboration with Trafikverket. The public sector is a strategically important area for Qbrick, where the need for secure and stable video solutions continues to grow. With our platform, Trafikverket can streamline its digital communication while ensuring high standards of security, accessibility, and data control."*

Through Qbrick's video platform, Trafikverket can produce, manage, and distribute video content for internal communication, training, information sharing, and digital events.

The partnership represents another step in Qbrick's strategic focus on sectors where secure video communication is mission-critical, such as the public sector, finance, education, and healthcare.
