Eevia Health Plc receives a 220 SEK / 20 KEUR sales order for a Bilberry extract

Eevia Health Plc, ("Eevia" or "The Company"), has received a 20 KEUR sales order from a new Finnish customer.

The customer is a Finnish contract manufacturer headquartered in Helsinki, that manufactures nutraceutical products of all types of dosage forms (applications) for large brand holders in the Nordic countries.

The sales value to Eevia of this new order is c. 20 000 EUR. The product is a Bilberry extract standardized for anthocyanins.

This is one of the customers Eevia services without using a distributor since the customer is based in Finland and the need for distribution services is very limited. The business and client is new, and Eevia is selected due to the high quality and authenticity of the product.

"Although it is a tiny order, we are very pleased to acquire new customers and build sales in Finland, which is our home market," says Stein Ulve, CEO of Eevia Health.

INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients to dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name [EEVIA](#).
