Seinäjoki, Finland 18.3.2024

EEVIA HEALTH PLC RECEIVES MULTIPLE SALES ORDERS FOR C. KSEK 518 (KEUR 50).

Eevia Health ("Eevia" or "The Company") received several sales orders totaling c 518 kSEK (50 kEUR) from various European customers.

The sales orders are for the products Feno-Chaga M (Chaga extract), Feno-Myrtillus 25 Organic, Feno-Myrtillus 36 Organic (both bilberry extracts) and Fenoprolin 70 Organic (Pine bark extract). The orders came from several Finnish and European customers in the whole foods and drinks as well as supplement segments. Eevia has the product in stock, so it can deliver fast. These are repeat orders. Eevia expects further repeat orders in the future from the same customers.

INFORMATION ABOUT EEVIA HEALTH PLC

Eevia Health Plc, founded in March 2017, addresses significant health problems with bioactive compounds extracted from plant materials. The materials are primarily wild harvested from the pristine Finnish and Swedish forests near or above the Arctic Circle. The extracts are sold B2B as ingredients in dietary supplements and food brands globally. These global brands utilize the ingredients in their consumer product formulas.

Eevia Health is a manufacturer of 100% organically certified plant extracts. Although a significant product, Elderberry extract, is made from cultivated berries, most of Eevia's other raw materials, such as bilberry, lingonberry, chaga-mushroom, and pine bark, are wild-harvested in a sustainable fashion.

Eevia Health operates a modern green-chemistry production facility in Finland. Manufacturing natural ingredients near the raw material harvest areas, Eevia offers a short value chain with an environmentally friendly carbon footprint, competitive pricing, and extreme transparency. Eevia listed its shares at Spotlight Stock Market in Sweden in June 2021, with the short name (ticker) [EEVIA](#).
