About Free2move Holding AB

Free2move Holding markets high performance low energy wireless technologies under two brand names: Free2move and SensMaster.

Free2move is a leader in Bluetooth® products characterised by long-range, simplicity and low cost integration. Free2move's embedded modules are easy to in-design for customers, allowing for cost effective solutions of their products. Free2move designs complete integrated solutions with defined interface for data and audio communication.

SensMaster specialises in end-user products for identification (RFID), security and wireless sensing. SensMaster's products are employed in industries such as air transportation, manufacturing, oil & gas; typically in applications for asset tracking, security, safety and environmental monitoring.
