## Bluelake Mineral Announces Change to the Board of Directors

Bluelake Mineral AB (publ) (the “Company” or “Bluelake Mineral”) is announcing that Neil Said has informed the Company that he has resigned as member and Chairman of the Board of Bluelake Mineral with immediate effect for personal reasons and in light of a settlement between the Ontario Securities Commission (OSC) and Neil Said regarding alleged breaches of Canadian securities law related to disclosures provided in connection with a corporate transaction in a Canadian company. This matter has no connection to Bluelake Mineral. New Chairman of the Board is Jonas Dahllöf, who has served as a Board member since 2020. As a result, Bluelake Mineral’s Board of Directors henceforth consists of Jonas Dahllöf as Chairman, as well as Patric Perenius, My Simonsson, Mathias Kongensøy, and Peter Hjorth as ordinary Board members.

### Additional information

*Bluelake Mineral AB (public) is an independent Swedish company active in exploration and mine development of copper, zinc, nickel and gold resources.*

*The Company owns approximately 99% of the subsidiary Vilhelmina Mineral AB, which is focusing on development of copper and zinc deposits in the Nordic region. In Sweden, the Company owns Stekenjokk-Levi project, where a total of approximately 7 million tonnes of ore were mined between 1976 and 1988 with an average grade 1.5% Cu and 3.5% Zn. Stekenjokk-Levi is, according to a recent Mineral Resource Estimate by SRK Consulting, containing inferred mineral resources of approximately 6.7 million tonnes with 0.9 % Cu, 2.7 % Zn, 0.6 % Pb, 55 Ag g/t and 0.2 g/t Au for Stekenjokk and inferred mineral resources of 5.1 million tonnes with 1.0 % Cu, 1.5 % Zn, 0.1 % Pb, 22 Ag g/t and 0.2 g/t Au for Levi (at a NSR cut-off of 60 USD/t). In Norway, the Company is owner of Joma Gruver AS which holds exploitation rights for the Joma field, where approximately 11.5 million tonnes of ore were processed between 1972 and 1998 with an average grade of 1.5% Cu and 1.5% Zn. The Joma field (excluding Gjersvik) is, according to a recent mineral estimate by SRK Consulting, containing indicated mineral resources of approximately 6 million tonnes with grades amounting to 1.00 % Cu and 1.66 % Zn and inferred resources of 1.2 million tonnes with grades 1.2 % Cu and 0.7 % Zn (at cut-off of 50 USD/t).*

## MINERAL

*In addition, the Company holds exploitation concessions for the nickel project Rönnbäcken (which is Europe's largest known undeveloped nickel resource) and an exploration permit for Orrbäcken, both which are located in Sweden. According to a recently updated mineral resource update in by the mining consulting company SRK, the Rönnbäcken project contains a mineral resource of 600 million tonnes with an average grade of 0.18% Ni, 0.003% Co and 5.7% Fe ("measured and indicated"). The updated preliminary economic assessment that SRK completed predicts a production of 23,000 tonnes of nickel, 660 tonnes of cobalt and 1.5 million tonnes of iron per year for 20 years, which would be a significant share of Sweden's total annual use of nickel which thereby has a strategic value. Orrbäcken is considered to have potential as a nickel deposit.*

*Further, the Company holds an exploration permit for Kattisavan which is considered to have potential as a gold resource and is located within the so-called gold line, close to projects such as Svartliden, Fäboliden and Barsele.*
