EYEON GROUP AB (publ): Eyeon Group Secures ARR Contracts Exceeding SEK 10 Million – Strengthened Cash Flow Already in Q2

Eyeon Group has recently signed several strategic customer agreements with leading players in the insurance, telecom, and cybersecurity sectors. The total value of these contracts exceeds SEK 10 million in annual recurring revenue (ARR). A substantial portion of the revenue is invoiced in advance, providing a direct positive impact on cash flow already in the second quarter. The revenue will be recognized over time in accordance with accounting standards, with an annual revenue effect of approximately SEK 12 million.

The contracts have been signed by Eyeon Group and its recently acquired subsidiary, SafeState. Several agreements are with new customers, while others represent expanded collaborations with existing clients—demonstrating strong trust in our solutions for cybersecurity, identity protection, and digital safety.

“These are not just large deals—they are long-term partnerships that reshape our financial outlook and prove our ability to deliver at the highest level. Eyeon Group is now entering a powerful growth phase, building on a scalable business model with global potential,” says Fredrik Björklund, CEO of Eyeon Group.

Eyeon Group continues to grow its recurring revenue base while also expanding its cybersecurity product offering through the company’s proprietary appstore.
