Raytelligence receives a strategic order

Raytelligence receives an order (initial value 10 000 euro) from a Dutch company for a pilot installation in two separate prisons concerning surveillance of prisoners in cells.

The order was received in hard competition from other companies and is a break-thru in this sector, the potential is very high says Per-Arne Viberg, CEO Raytelligence AB. There are prisons all over the world who have needs to monitor vital signs in a non-intrusive way, besides presence can respiration, heart rate and position be detected.
