Dividends portföljbolag Evendo lanserar reseguide och App

Evendo, Dividend Swedens största innehav, meddelar att de lanserar en ny banbrytande reseguide och App.

I dagarna lanserar Evendo nya Evendo Travel Guide och Evendo Travel Guide App, vilket markerar ett revolutionerande steg i hur resenärer planerar och upplever sina resor. Plattformen och appen har utvalda guider för över 10 000 städer och destinationer, som täcker nästan 2 miljoner attraktioner, landmärken, restauranger, butiker och mycket mer. Oavsett om du planerar en resa eller utforskar en ny stad, samlar Evendos integrerade lösning alla aspekter av resor på ett ställe - vilket gör reseplaneringen enklare, snabbare och roligare.

Evendo Unveils Groundbreaking Global Travel Guide and App, Redefining the Future of Travel Planning

Evendo, a leading innovator in the travel industry, is proud to announce the launch of its all-new **Evendo Travel Guide** and **Evendo Travel Guide App**, marking a revolutionary step in how travelers plan and experience their journeys. Building on its successful platform for booking tours, experiences, and accommodations, Evendo has transformed its service into a comprehensive travel companion, offering users a seamless and stress-free way to explore the world.

The newly launched platform and app feature **curated guides for over 10,000 cities and destinations**, covering nearly **2 million attractions, landmarks, restaurants, shops**, and much more. Whether planning a trip or exploring a new city on the go, Evendo's integrated solution brings together every aspect of travel in one place - making trip planning easier, faster, and more enjoyable.

“Our mission has always been to simplify the travel experience, and this new evolution of Evendo does exactly that,” said Kasper Larsen, CEO in Evendo. “With our **new travel guide platform and app**, we’re giving travelers the ability to plan and book every aspect of their trip with unprecedented ease, all in one seamless experience.”

Key Features of the New Evendo Platform and App:

- **City Guides for 10,000+ Destinations:** Detailed, curated guides featuring top attractions, hidden gems, restaurants, bars, shops, and more, across thousands of global cities.
- **"Near Me" Feature:** Quickly discover attractions, experiences, and dining options around you, whether you're in a bustling city or a remote village.

- **Offline Access:** Download guides and explore destinations without internet access, making it easier to navigate while on the go.

- **Integrated Booking:** Instantly book tours, experiences, and hotels directly from the platform, with access to hundreds of thousands of experiences and over a million accommodations worldwide.

- **Cultural Insights and History:** Dive deeper into the history and culture of each destination, enriching the travel experience with fascinating stories and local context.

This launch comes after the successful introduction of **Eve**, Evendo's AI-powered search assistant, which transformed how users planned trips by eliminating the need for endless filters and searches. The **Evendo Travel Guide** and app take that innovation to the next level by combining planning and booking with offline accessibility and intuitive design, making Evendo a true travel companion at every step of the journey.

"We didn't just want to make a booking platform; we wanted to build a **global travel universe** that inspires and empowers travelers from the moment they start planning to the moment they return home," said Kasper Larsen. "Whether you're dreaming of the vibrant streets of Barcelona, the temples of Kyoto, or exploring your own city, Evendo is your gateway to inspiration, adventure, and discovery."

The **Evendo Travel Guide App** is now available for download on Android, and shortly also iOS, offering users free access to its vast library of destination guides, booking features, and offline content.

With this new innovation, Evendo is setting a bold new standard for the travel industry, simplifying the complex nature of travel planning while making the entire process more enjoyable and intuitive.

For more information, visit www.evendo.com or download the Evendo Travel Guide App from the App Store or Google Play.
