Raytelligence receives orders from Hofors municipality

Raytelligence receives orders for EaZense from Hofors municipality, order value approx. SEK 40,000. The order refers to a pilot installation for a dementia home for supervision in rooms and corridors.

“More and more municipalities are discovering the benefits of the EaZense radar-based sensor system.

So far, we have received orders for EaZense from several different municipalities and have ongoing discussions with another 25 municipalities.

Together with the international orders of more than SEK 6 million we received during the autumn, we see that sales have really picked up speed and expect further orders soon.” says Klas Arvidson CEO.
